DETAILED ACTION

1. This action is in response to Applicant's submission filed 11/5/07, responding to the 7/3/07 Office action which detailed the rejection of claims 1-22. Claim 10 has been amended. Claims 1-22 remain pending in the application and have been fully considered by the examiner.

Oath/Declaration

2. The declaration under 37 CFR 1.132 filed 11/5/07 is sufficient to overcome the rejection of claims 1-22 based upon "Enhanced Testing of Domain Specific Applications by Automatic Extraction of Axioms from Functional Specifications" by Sinha et al. Accordingly, the rejections have been withdrawn.

Allowable Subject Matter

3. Claims 1-22 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fail to teach, in combination with the other claimed limitations:

...translating a natural language specification to a domain specific description language including a set of axioms, ... generating a model of the system from said domain specific description language specification, said model behaving in accordance with ... said set of axioms...generating from said model a test case for each behavior.

These limitations are present in each of independent claims 1 and 10. The distinctions provided by the independent claims apply equally to all dependent claims. Thus all pending claims 1-22 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
